Making technology work for you

October 2016   09 401 6133

Hi and welcome to the new look Bay of Islands Computers.

When we took over the business three months ago we gave it a fresh new look. We also introduced lots of new services and products and as a result we have been extremely busy.

To ensure that we could continue to meet demand for speedy service (we offer next day repair on most devices) we have taken on more staff but that meant space became very crowded, so we have moved to bigger premises.

Left to right: Andrew Fergus, Glen Yong, Jeff Adams, Brendan Cooper & Lesley Johnson (front)

We are now located at 32a Klinac Lane, just up the road a bit from our old store.
We are open 9-5 weekdays and 10-2 on Saturdays, with a 24/7 on-call service available to commercial contract customers.

One of the things that has been keeping us so busy is helping our clients to set up data backups, on their computers and in the cloud. Power fluctuations, viruses and aging components can leave your valuable information / business at risk and we can't emphasise enough the importance of organising backups but if the worst does happen, we offer a data recovery service.

Also just a reminder we repair Mac, PC and most brands of printers. If you're thinking about upgrading come and see us for advice before you buy. But you don't need a reason to call in. Pop in anytime to check out our new showroom and meet our new members of the team.

We hope to see you soon.

Regards,
Andrew, Brendan and the team

Open 9-5 weekdays and 10-2 on Saturdays
